Wild Turtle

To make your turtle you will need:
A foil dish - cardboard - white paper
Glue - Tape - Scissors - String - Pen -Sponge
Paint (acrylic or another thick paint)

Try & use as many re-cycled materials as you can!

1. Recycle a foil dish (this is a cat food tray!)

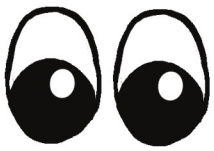
2. Paint the dish green - then use yellow paint & a sponge to add texture.

3. Place the shell on some card & draw 4 flippers, a tail & head.

4.

5. Cut out & paint with different shades of green & yellow. Use the end of a pencil & a sponge to create texture.

6. Draw two eyes on paper, cut them out & glue on.



7. Glue or tape the card pieces in place on the underside of the shell. Use string to create the pattern of the shell, or draw it on in pen.
